

*Welcome* to Deep Roots Psychic Studio, a place of clairvoyant healing in Santa Fe, NM.

### CLAIRVOYANT HEALING

Clairvoyant healer and teacher Lisa Pelletier looks at her clients' paths and trajectories, their hopes and dreams, their growth, what's obstructing that, and what kinds of messages, assistance, and energy their Soul is giving.

In her sessions, classes, and house & business clearings, often what is most needed is to release *energies that no longer serve*, so that participants can reside in their own intrinsic, creative, and capable beingness.

### HOW LISA READS

- Energy work is done beforehand to establish a safe space in which healing and next steps can begin.
- Lisa practices spirit-to-spirit communication: the brightest and lightest aspect of Lisa communicates directly with the same in *you*.
- Some have never received this kind of neutral, clairvoyant, spiritual validation and information: So, trust in Spirit and don't sweat what may at first seem illogical or irrelevant.
- All the psychic information and energy work defers to the client's free will. Lisa simply points to the capabilities already within.

### WHAT LISA READS

- The current growth cycle or phase of life; what the client is growing and creating as a Soul
- The capabilities, obstructions (what is no longer serving), and energy in the aura and chakras
- The Soul space (who is the client as a Soul, what gifts and messages can they better receive?)
- Communication with Guides and helpers
- A few past lives and/or past life patterns
- Answering questions, if any
- A next step on one's path to spiritual freedom
- Each session ends by restoring to clients their own shiny & rejuvenating life-force energy

### SUGGESTIONS *(optional)*

- Jot down a couple questions beforehand
- Or, it's okay to not have any questions
- Muse (or intend to dream) on a longing, wish, dream, or big goal that you would like to either resolve/neutralize or achieve/accomplish
- This musing may conjure up the reasons one thinks they won't have resolution. Please toss that out the magic Santa Fe window for now! ;-)
