

A 2-Day Intuitive Retreat + AN OPTIONAL 3RD DAY FIELD TRIP!

Friday, July 28, 2023 + Saturday, July 29, 2023 + Sunday, July 30, 2023 (optional)

WANT TO BECOME YOUR OWN MUSE?

Ever heard of the term *muse*? In literature, a muse is a source of inspiration. A muse can be a person, a place, or an object of affection that inevitably arouses your artistic expression. A muse is what awakens the creative forces within you to create.

Imagine if you could forego waiting around for some person, place, or thing outside of you to inspire you to create. Imagine what your creative life would be like if you became your own muse!

AWAKENING YOUR CREATIVE POWER RETREAT

Be ready to take a big step in owning your creative power. At this retreat you'll learn more about the inner source of your creativity, how to tap into your creative power, and how to manifest using your own creative energy.

Be prepared to be guided within for answers, inspiration, and restoration. Experience the integration of mind, body, heart and soul through intuitive exploration exercises and play. Discover how to more fully connect with your inner muse whose creative power gives you total acceptance, new ideas, love and encouragement.

Be willing to connect to other creative souls as you share your growth experiences with one another, partake in morning breakfast and snack

breaks each day and even join the group for an optional day trip to Ojo Caliente Mineral Springs.

And most importantly, be open to becoming your own muse in life and/or deepening the relationship you already have with your inner muse.

UNIQUE RETREAT LOCATION & LODGING: THE MABEL DODGE LUHAN HOUSE

Mabel Dodge Luhan was a mystical muse of her time. Born in 1879 into a New York socialite life, she left all that behind in 1917 when she moved to New Mexico. In 1923 she married Tony Luhan (TIWA, TAOS PUEBLO), and together they constructed and cultivated a sanctuary for creative souls. Mabel wanted to explore her inner creativity while offering others a space to develop their own creativity.

Her new life in Taos fulfilled this purpose and others: one mystical goal relates to the *point of power* in the mountains above Taos. Also known as *energy vortexes*, these can bring about feelings of peace, harmony, balance and tranquility, as well as promote reflection, deep insight, and a clear mind. In answering the call of their Inner Muse, the Tiwa peoples, Tony, and Mabel played integral roles in safeguarding this *point of power*.

You will be guided to commune with this point of power while meditating in this creative sanctuary!
